# VACCUM & FOOD APP

## CASO FOOD MANAGER APP

The best way to store and organize your food. Experience the perfect overview of your stored foods with the new CASO<sup>®</sup> DESIGN Food Manager App.

Use the app to scan QR-Code labels applied on your stored food items, which are then added to your personal food list. That way, you always have a clear idea of what's in your fridge or freezer and whether something is close to expiring.

Learn more about the app and its handy features and begin to embrace a more sustainable way to inventory and track your food and save money and food!

### SMART STORAGE

- + Put leftovers in a sealed vacuum bag and scan the label to add it to your personal food item list.
- + Scanned foods can be sorted by place of storage (freezer / fridge / storage room etc.)
- + Scanned foods can be displayed by type of food (fish, meat, vegetables etc.)
- + The CASO Food Manager App informs about the durability of your stored foods by letting you attribute an expiry date to each food item on your list.

### HANDY QR-CODE LABELS

- + Label your stored food items with handy QR-Code labels provided by CASO Design.
- + Scan the label and add the respective food to your personal stored food overview.

### SHOP SMARTER

- + While enroute, check what's available in your fridge. That way, you can make sure to only buy foods you need.

### COOK MORE CREATIVELY

- + A quick look into your CASO Food Manager gives you ideas on what you can cook.

### IDEALLY COMBINABLE WITH CASO VACUUM SYSTEMS

- + Use the CASO FOOD MANAGER APP in with a number of CASO Vacuum Systems. The ideal addition to the best possible way of sustainably dealing with your food items. Note that CASO Vacuum Bags and Foil come with a variety of differently-sized QR-Code labels.

### NO QR-CODE LABELS AT HAND?

- + All food items can also be added and organized manually – no problem.

### MORE SAFETY

- + The app's technology is based on a proprietary security system at Caso.
